## **Use FluLaval® MDV vaccine 28 days after first use**

This is a message regarding the use of GlaxoSmithKline's product FluLaval® (NDC # 19515-0898-11). This vaccine has a beyond use date; once a needle is inserted the vaccine should be used within 28 days. After 28 days the vaccine can no longer be used and will have to be discarded.

For the FluLaval® supplied by the VFC Program, if there is a product remaining after 28 days of the first use:

1. Discard vaccine.
2. Adjust the vaccine out of your online inventory in KIDS Plus IIS.
  - a. In the notes field, type: "Beyond Use Date: date". Example: FluLaval® first used on 11/01/2015, notes field should read: "Beyond Use Date: 11/29/2015"
3. This will not be counted toward your 5% wastage.
